Paver Care

What ages concrete pavers? Although concrete pavers are extremely durable, they are not impervious to time and nature. Over time, the surface can begin to wear, exposing more of the aggregates underneath and making the color appear faded. In addition, unprotected pavers are more easily stained by accidental spills, automobile fluid leaks, organic debris, soluble salts and various environmental factors.

Can I stop or slow concrete pavers from aging? Absolutely. The application of a high-quality protective sealant will slow down the clock and keep pavers looking newer, longer. Embrace proper application and decide what's best for your pavers.

THE ULTIMATE PROTECTION SYSTEM

Techniseal® ensures a 3-step treatment system guarantees the best results. Remove stains with the correct specially formulated Stain Remover, prepare the surface with a Paver Prep, then apply a Protector that delivers the look you want.

Colors, Textures & Styles

GET CREATIVE

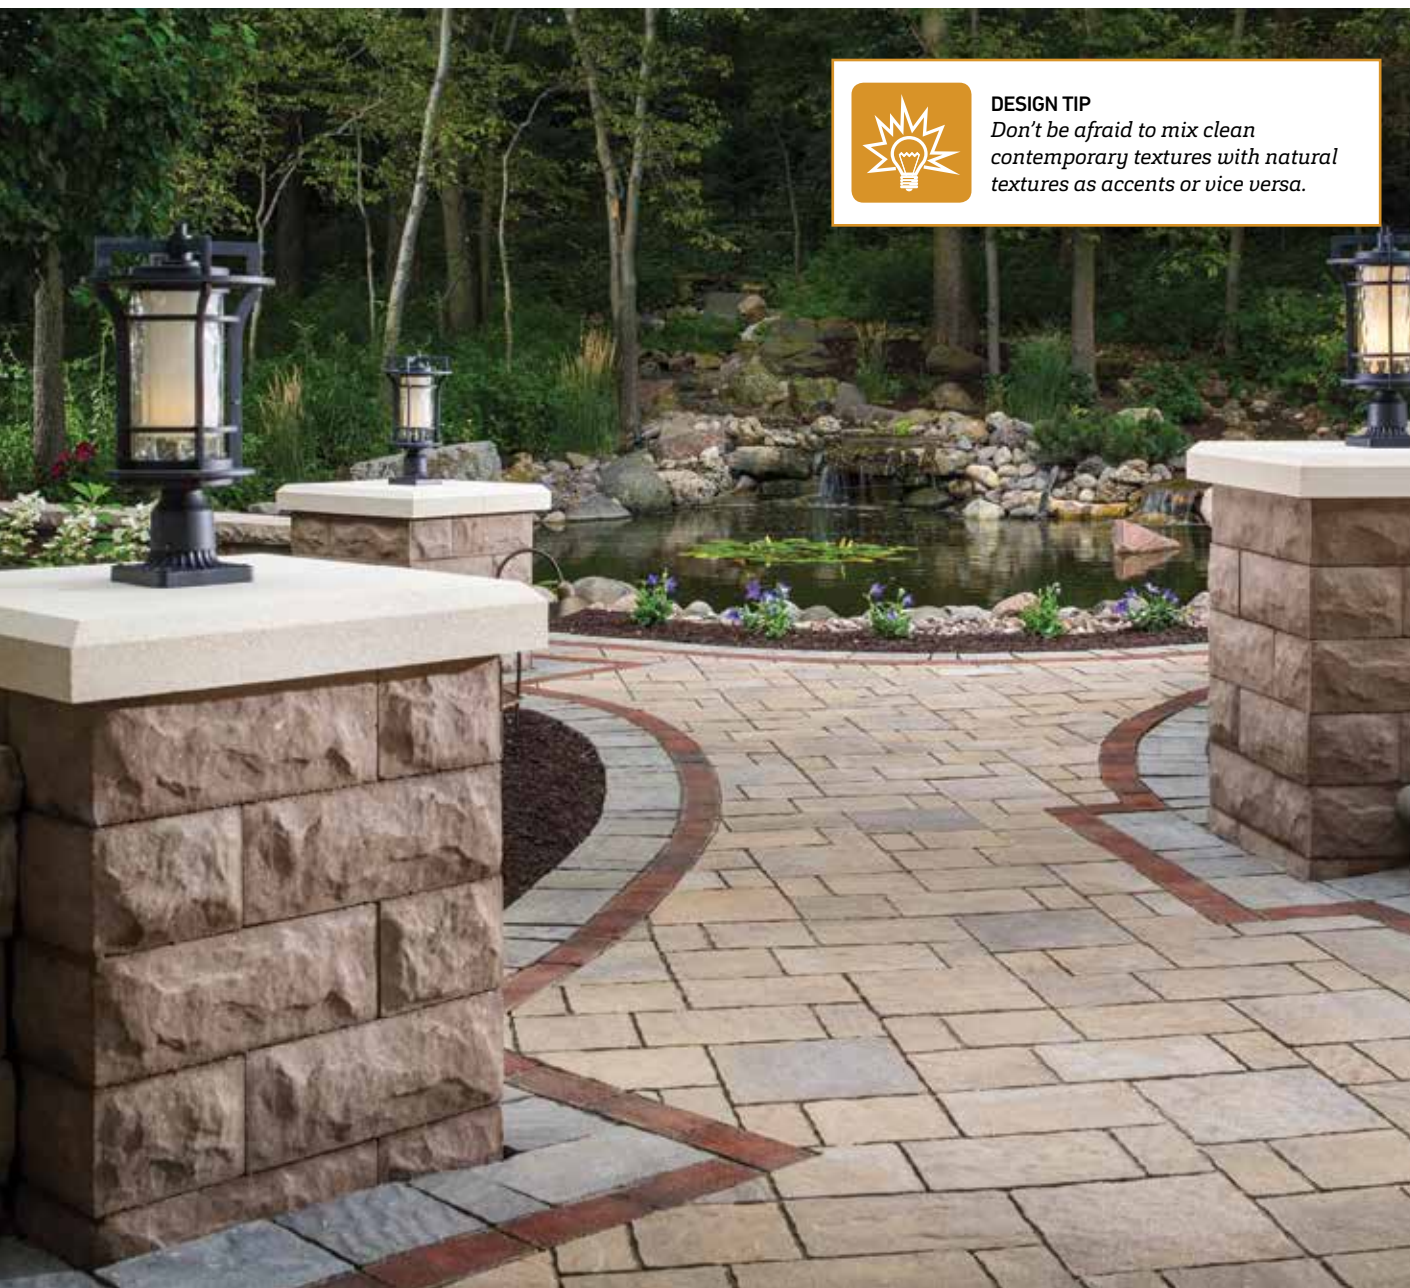

Feel free to mix it up! Use different paver styles, textures and colors to add visual interest and beauty to your next project. Whether it's a contrasting border, inlaid border, or an inlaid rug design, there are endless combinations to consider when designing your space. Draw inspiration from rug designs, tile or your own imagination to make your project unique and exciting.

BELOW: This beautiful outdoor patio features our classic Urbana Stone, with inlaid Holland Stone and an accenting border in Urbana Stone. The result is an intriguing mix of old and new!

DESIGN TIP

Don't be afraid to mix clean contemporary textures with natural textures as accents or vice versa.

ACCENTS

Adding inlays and banding isn't just limited to the pavement. Adding these accents in vertical features such as kitchens, walls and pillars can really tie everything together.

TOP: Adding a single band in a contrasting color to the Tandem Modular Grid kitchen below adds visual interest and creates a designer look.

BOTTOM LEFT: Contrasting arches of Old York pavers add a whimsical touch to this Lafitt Rustic Slab patio.

BOTTOM RIGHT: A Moduline Series border around a section of Mega-Libre pavers creates the look of an inlaid rug for this Mega-Lafitt patio.

DESIGN TIP

The placement of an accent band within a wall, pillar or kitchen unit doesn't have to be limited to just one. Changing up the number and placement of a band can dramatically change the overall look.

INLAID CONTRASTING BORDERS

DESIGN TIP

As a rule of thumb, try to keep the number of paver styles and colors to no more than three in any particular project.

Understanding the Process

BELGARD® WILL IMPROVE THE BEAUTY AND VALUE OF YOUR HOME.

But like any construction project, it's necessary to have as much information as possible before you begin the process. With that in mind, this next section is dedicated to helping you make the best decisions and understand what to expect before you get started with your project.

YOUR LANDING SPOT FOR INSPIRATION

Belgard® Design Studio

YOUR VISION – BROUGHT TO LIFE

By partnering with a Belgard Authorized Contractor (BAC), your dream outdoor space can be brought to life with 3-D renderings crafted by our Belgard Design Studio.

With our expert design team, they integrate photos of your home's exterior with sketches from your contractor, to give you a realistic vision of your future space.

This process enables you and your contractor to collaborate and agree on your vision before the first paver is ever laid, avoiding future compromises or surprises. We have a number of sample projects and plans available in our design gallery for inspiration. You can even request to have the plan retrofitted so it harmonizes with the characteristics and site features of your property. Please contact a Belgard Authorized Contractor to learn more. Visit **Belgard.com/Locator**.

BEFORE

DESIGN TIP

3-D design images include furniture placement, potential landscaping, and existing structures and design elements, which helps create a realistic preview of the future space.

3-D DESIGN

NEXT GENERATION TOOLS TO VISUALIZE YOUR OUTDOOR SPACE

Experience your dream outdoor space like never before, by seeing the design of your space using Belgard Design Studio's Virtual Reality platform. When you work with your Belgard Authorized Contractor, you can ask the project to be designed in 3-D on a virtual reality setting, which will allow you to experience your dream space from multiple vantage points – all from the comfort of your home. AFTER

Selecting a Contractor

A hardscape project is an important investment in your home, and selecting the right contractor is a critical decision. Don't be afraid to ask a lot of questions. It's important that you get to know your contractor so that you can work together as a team to create your ideal outdoor living space.

What to Ask

- Installing hardscapes is a **SPECIALIZED SKILL** that requires training and experience. Inquire about specialized certifications and training from organizations like the Interlocking Concrete Paver Institute (ICPI). All **Belgard® Authorized Contractors** are required to have at least one team member who is ICPI certified and must meet annual requirements to maintain the company's "authorized" status.
- Ask for **CUSTOMER REFERENCES** and to see photos of past projects, both for design ideas and to get a sense of the contractor's level of creativity, expertise and work ethic. Ask for an address or two and check out the workmanship up close, with the homeowner's permission of course.
- Determine upfront which aspects of the project the contractor can handle. Will their team manage aspects like **LANDSCAPING, PLUMBING, IRRIGATION AND LIGHTING** – or will you be expected to handle this separately?
- Be sure to get a complete understanding of **PAYMENT TERMS** and estimated start date and turn-around time.
- It important to hire a contractor who can provide **PROOF OF INSURANCE** and is able to guarantee their work for a period of at least one year after the installation.

Peace of Mind, Guaranteed

LIFETIME TRANSFERABLE LIMITED WARRANTY

Oldcastle® Architectural, Inc. ("Belgard") is proud to inform you that all of our interlocking concrete paver and retaining walls ("Products") meet and/or exceed the requirements of ASTM C-936 and ASTM C-1372. Belgard® guarantees its Products against these standards for the lifetime of the Product defined by ICPI. This guarantee does not apply to splitting, chipping or other breakage that could be caused by impact, abrasion or overloading. This warranty is transferable. The original proof of purchase is required.

This warranty is only valid if the material is installed under the guidelines of the ICPI (www.ICPI.org), The NCMA (www.ncma.org) or the Belgard Installation Guideline Manual. Improper installation voids this warranty. This warranty is for residential applications only and does not apply to commercial applications. It is recommended that the job be installed by a Belgard Authorized Contractor who guarantees their workmanship for a minimum of 2 years from the date of install. For warranty service, contact belgard at 1-800-BELGARD. A service representative will investigate your claim within 10 business days. If the Belgard product fails to meet the specifications, Belgard will replace the defective product at no charge. Color matching cannot be guaranteed. Belgard will not be responsible for any replacement labor, consequential damages or incidental damages. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE. SOME STATES DO NOT ALLOW FOR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.
